

# User Acceptance Testing (UAT) Template

<b>Date</b>	20 February 2026
<b>Team ID</b>	LTVIP2026TMIDS80887
<b>Project Name</b>	FreelanceFinder: Discovering Opportunities, Unlocking Potential
<b>Maximum Marks</b>	4 Marks

## Project Overview:

Project Name: FreelanceFinder: Discovering Opportunities, Unlocking Potential

### Project Description:

SB Works is a web-based freelancing platform designed to connect clients and freelancers under administrative supervision. The primary objective of this project is to create a structured environment where clients can post projects, freelancers can apply and submit work, and administrators can monitor system activities and manage users.

Project Version: Version 1.0

Testing Period: 05 February 2025 to 10 February 2025

## Testing Scope:

### Features & Functionalities Tested:

- User Registration & Login
- Freelancer Profile Creation & Management
- Job Posting (Client Side)
- Job Search & Filtering
- Proposal Submission
- Messaging System (Client–Freelancer Communication)
- Admin Dashboard
- AI-based Job Recommendations
- Email Notifications

### User Stories Tested:

- As a user, I can register and login securely
- As a freelancer, I can create and update my profile
- As a client, I can post freelance jobs
- As a freelancer, I can search and filter jobs
- As a freelancer, I can apply for jobs by submitting proposals
- As a user, I can communicate through messaging system
- As an admin, I can manage users and job postings

## Testing Environment

URL/Location: <http://localhost:3000>

### Credentials:

Username: testuser@freelancefinder.com

Password: Test@123

### Test Cases:

Test Case ID	Test Scenario	Test Steps	Expected Result	Actual Result	Status
TC-01	Register as Freelancer	Enter email, password → Click Register	User account created successfully	As expected	Pass
TC-02	Login with valid credentials	Enter email & password → Click Login	User redirected to dashboard	As expected	Pass
TC-03	Update freelancer profile	Edit details → Save	Profile updated successfully	As expected	Pass
TC-04	Search freelance jobs	Enter keyword → Apply filters	Relevant jobs displayed	As expected	Pass
TC-05	Apply for a job	Click Apply → Submit proposal	Application submitted successfully	As expected	Pass
TC-06	Client posts job	Fill job details → Submit	Job visible to freelancers	As expected	Pass
TC-07	Chat between client & freelancer	Send message	Message delivered instantly	As expected	Pass
TC-08	Manage users/jobs	Admin updates/removes data	Changes reflected correctly	As expected	Pass

### Bug Tracking:

Bug ID	Bug Description	Steps to Reproduce	Severity	Status	Additional Feedback
BG-001	Proposal submission delay	1. Open a job 2. Submit proposal	Medium	Closed	Backend response optimized
BG-002	Profile update not reflecting instantly	1. Edit profile 2. Save changes	Low	Closed	UI refresh issue fixed

BG-003	Job search filtering slow for large dataset	1. Apply multiple filters	Medium	In Progress	Query optimization required
BG-004	Messaging system delay	1. Send message 2. Wait for response	High	In Progress	Real-time sync improvement needed
BG-005	Email notification not triggered	1. Apply for job 2. Check email	Medium	Open	SMTP configuration issue
BG-006	Admin dashboard slow loading	1. Login as admin 2. Open dashboard	Low	Closed	Performance improved
BG-007	Duplicate proposals allowed	1. Apply twice to same job	High	Open	Validation needs to be added
